### What makes a BAD Design?

Why? Too busy, confusing, too much text  
Too much red, competing for order

### What makes a GOOD Design?

Clear layout, good use of contrasting colors, clean layout

Choose 2 good designs and 2 bad designs from your everyday life and post on our class blog. You can pull from a video game, website, artwork, mural, graffiti - anywhere you like. Write a few words that describe your opinion. We will share and discuss in class.

**Due: Feb 4** submit on class blog. Tag your name and the assignment name. If the blog gives you trouble then submit via google doc format. [Giovanna Zamora](#) can assist those that need blog help on Thursday.
